

IN THE CLAIMS

1-92. (canceled)

93. (currently amended) A method for inhibiting tumor cell growth in an animal, comprising administering to said animal an effective amount of a composition consisting of a hemagglutinating virus of Japan envelope (HVJ-E) and a pharmaceutically acceptable carrier, wherein the composition is administered intratumorally.

94. (previously presented) The method of claim 93 wherein IL-12 and IL-6 in dendritic cells are induced or regulatory T cells are inhibited.

95-98. (canceled)
